

# KIDS ACTIVITY BOOKLET

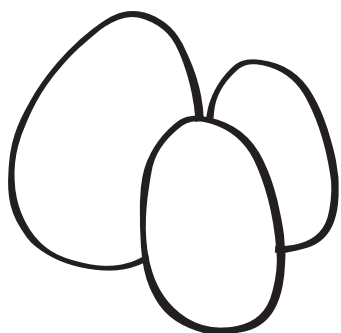

||>> SEND Relief

Send Relief shares the love of Jesus and helps children in need all over the world! You and your friends can help Send Relief this summer. Earn or save enough money to donate a cow, chicken or goat. The money you raise for animals will help kids who need eggs, milk and a way for their parents to earn money.

By selling the milk and eggs, families can provide yummy food and warm beds for their kids to sleep in. Thank you for helping children across the world have full bellies and a safe home to live in. Thank you for helping them learn more about God!

# COW

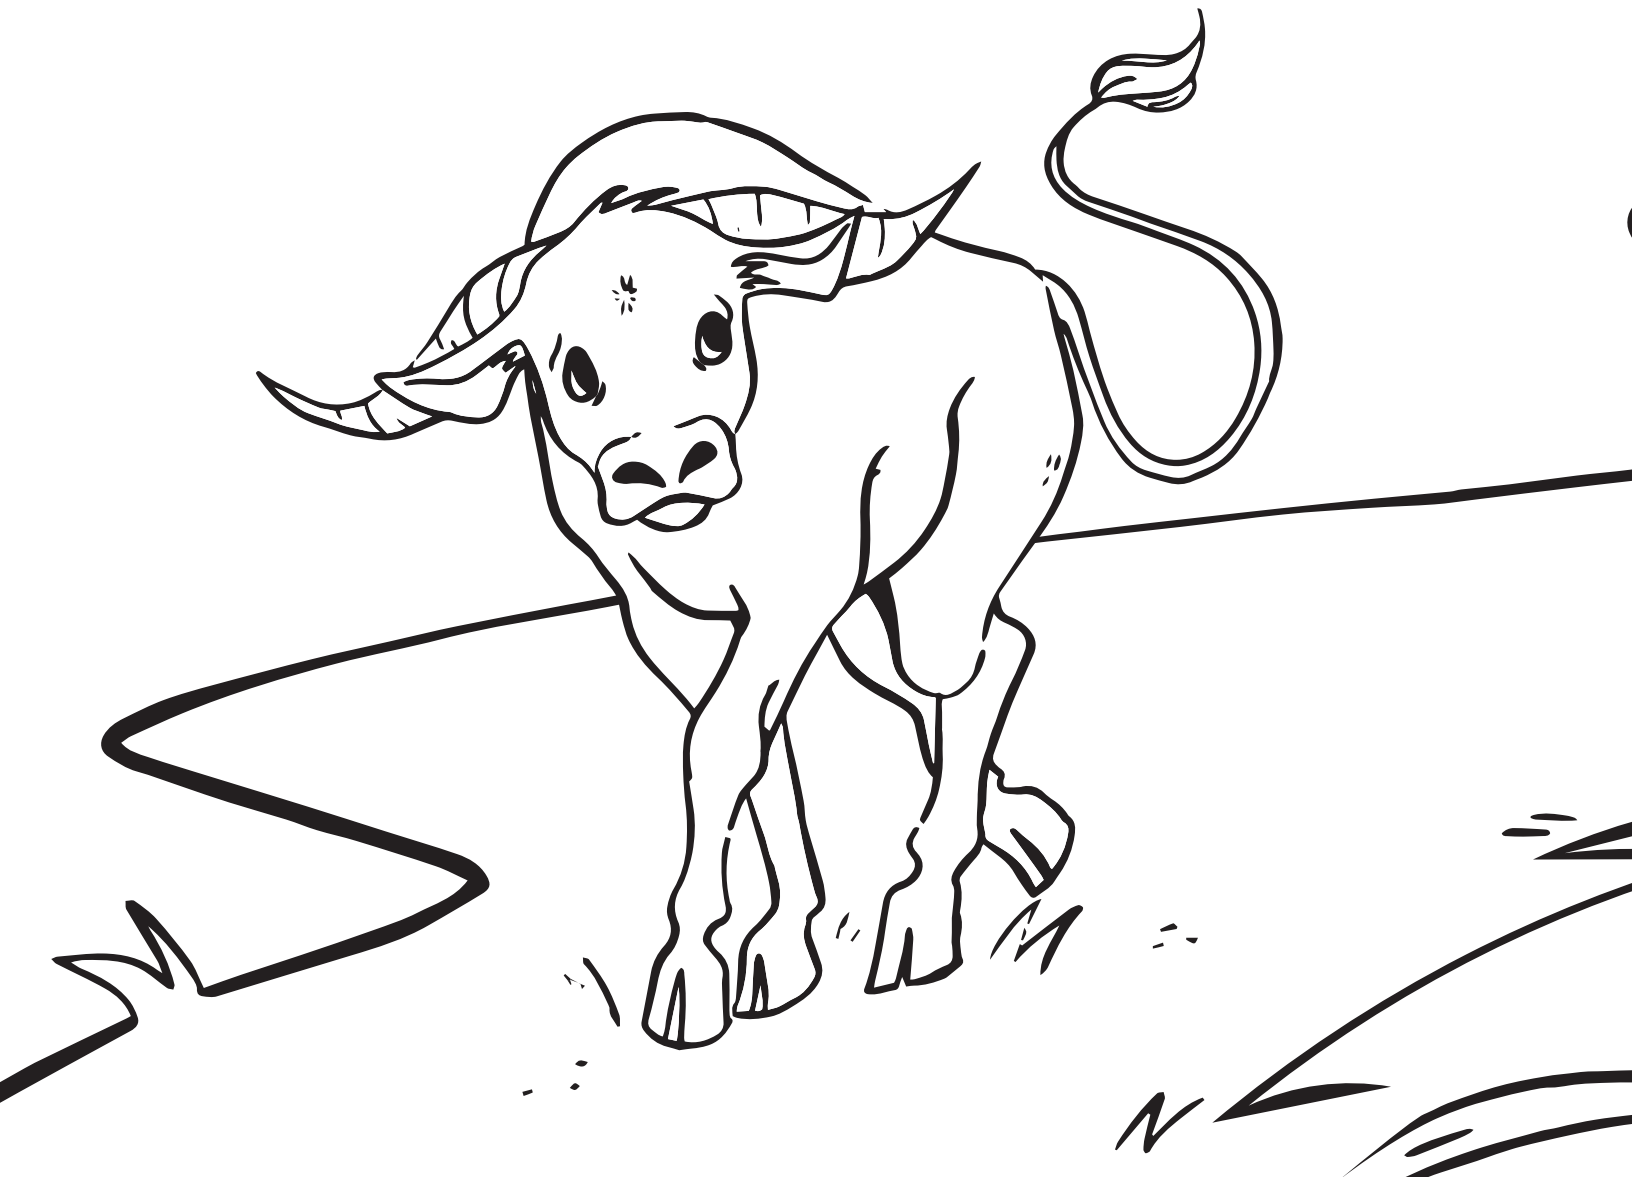

In a remote village in Uganda, the people rely on their cows to plow fields for crops that will last them the whole year.

Recently, many of the cows got sick or were stolen. Some fields didn't get plowed. The whole village was running out of food.

Send Relief funds bought eight cows to help plow gardens, and important foods like beans and corn were grown to feed families!

One of the fathers in the village said, "When our cows were stolen, we were very afraid! I completely depend on my cows to plow the garden, so no cows meant no food for my family for a whole year. Thank you, Send Relief, for giving me cows! We harvested a lot of corn because of them, and I should be able to support my family with food for the rest of the year."

One cow can make the difference between a family having food or struggling to get by. Give to Send Relief to help more families in need eat well all year long!

# CHICKEN

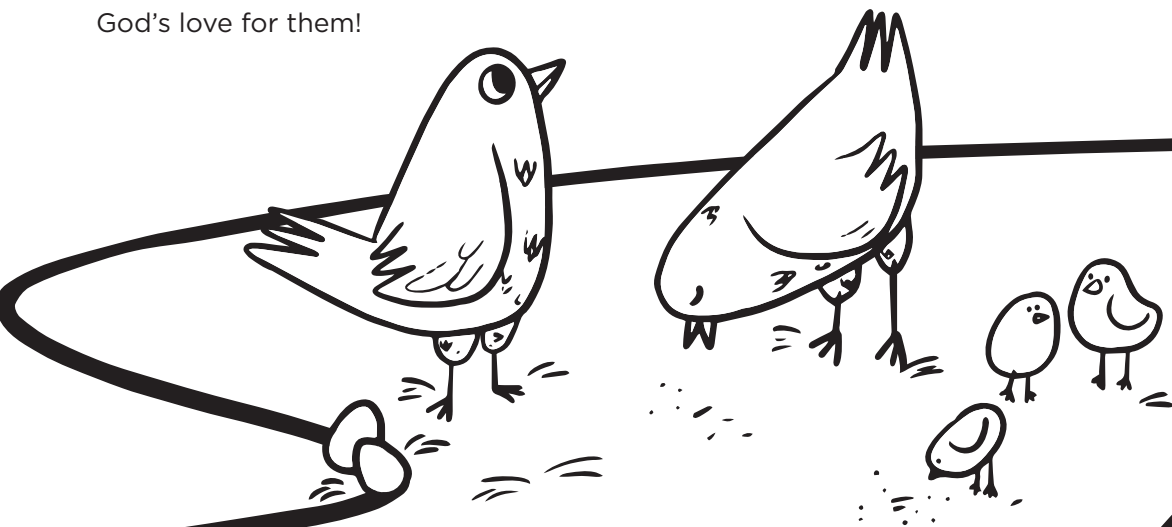

George was orphaned at a young age and had no family or friends to take care of him.

Every day, he struggled to find enough food to eat and couldn't go to school because he could not pay for the supplies or school fees.

Then, because of generous donations from kids like you, Send Relief gave his village a chicken coop and 300 chickens. This gave families a consistent way to make money and stay well-fed.

Now, George is regularly paid to clean the coop. He has used some of the money to go back to school! George also heard about the love of Jesus for the very first time. He is now a Christian!

This was all made possible because of caring people like you! So, what are you waiting for? Start raising funds now to help even more kids like George go back to school and learn about God's love for them!

# PIG

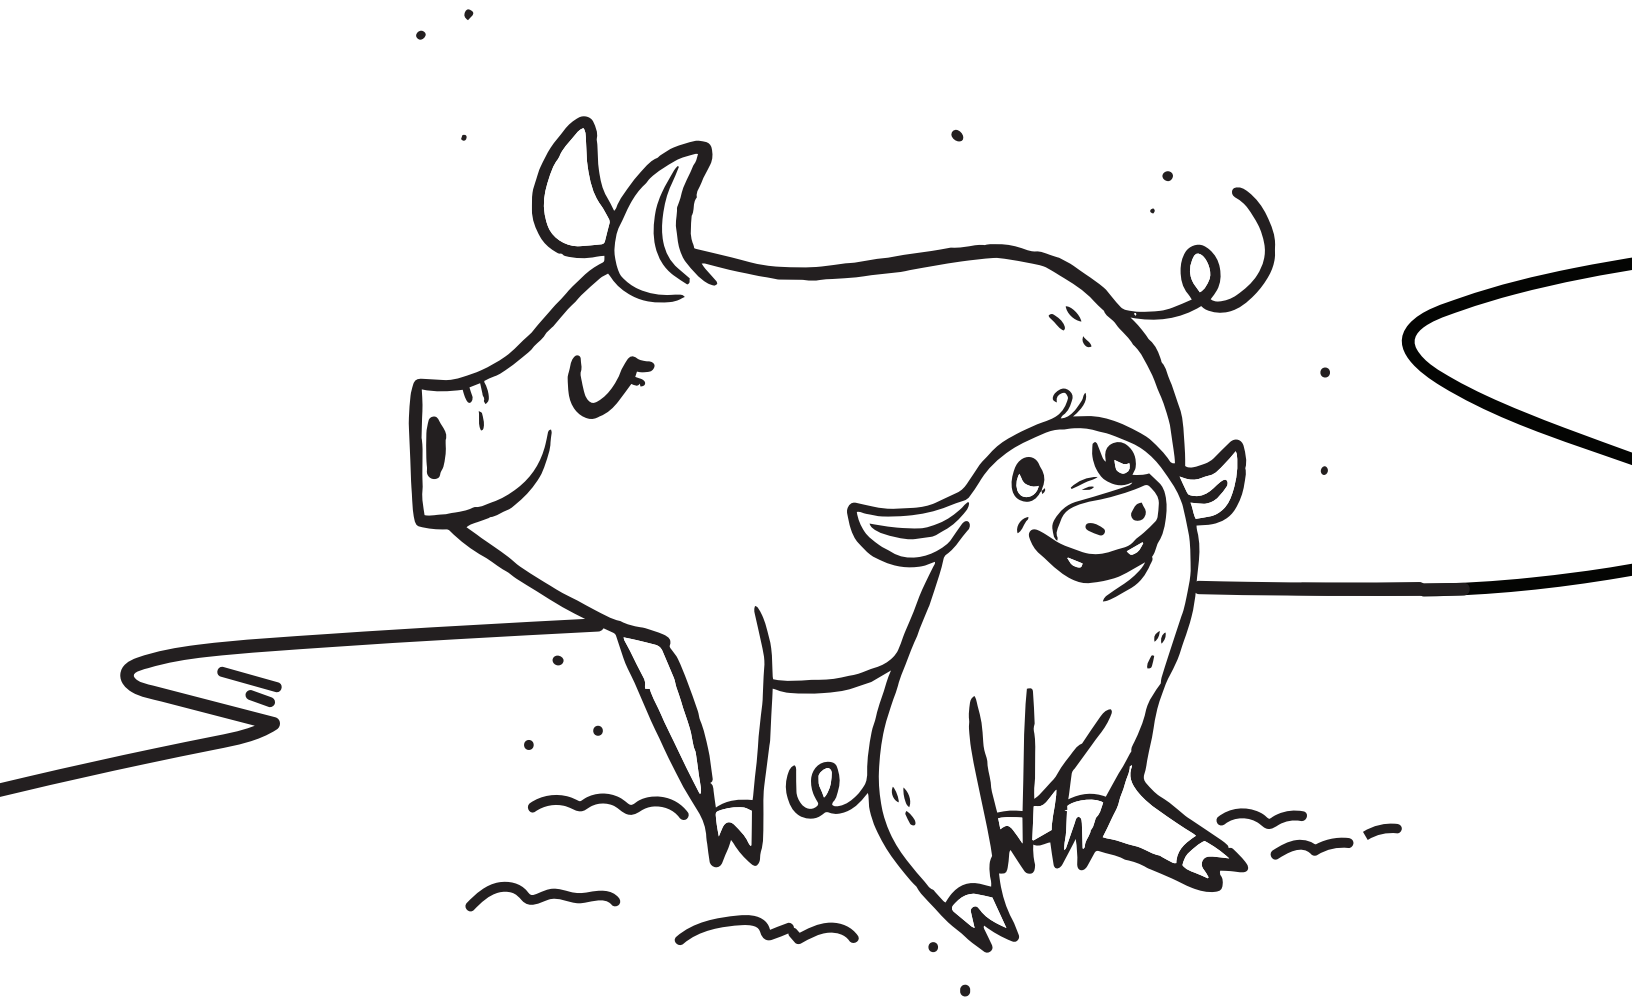

Ellen is a caring mother to several young children in Kenya.

For a while, Ellen was not able to pay the elementary school's fees for her children to attend school.

She was given a mama pig who had some new babies, or piglets. When the piglets grew larger, Ellen sold them to help other families. The money she received made it possible for her children to go back to class!

She said, "I really needed this help. This Send Relief project helped my children return to school, and it will help me continue to pay the school fees. I don't even know how to say thank you for this gift!"

The small donation of a pig can help other kids get the education they deserve, so start raising funds today so that more kids like Ellen's children can go to school!

# GOAT

One community of farmers in the Philippines was having a hard time keeping food on the table for their families.

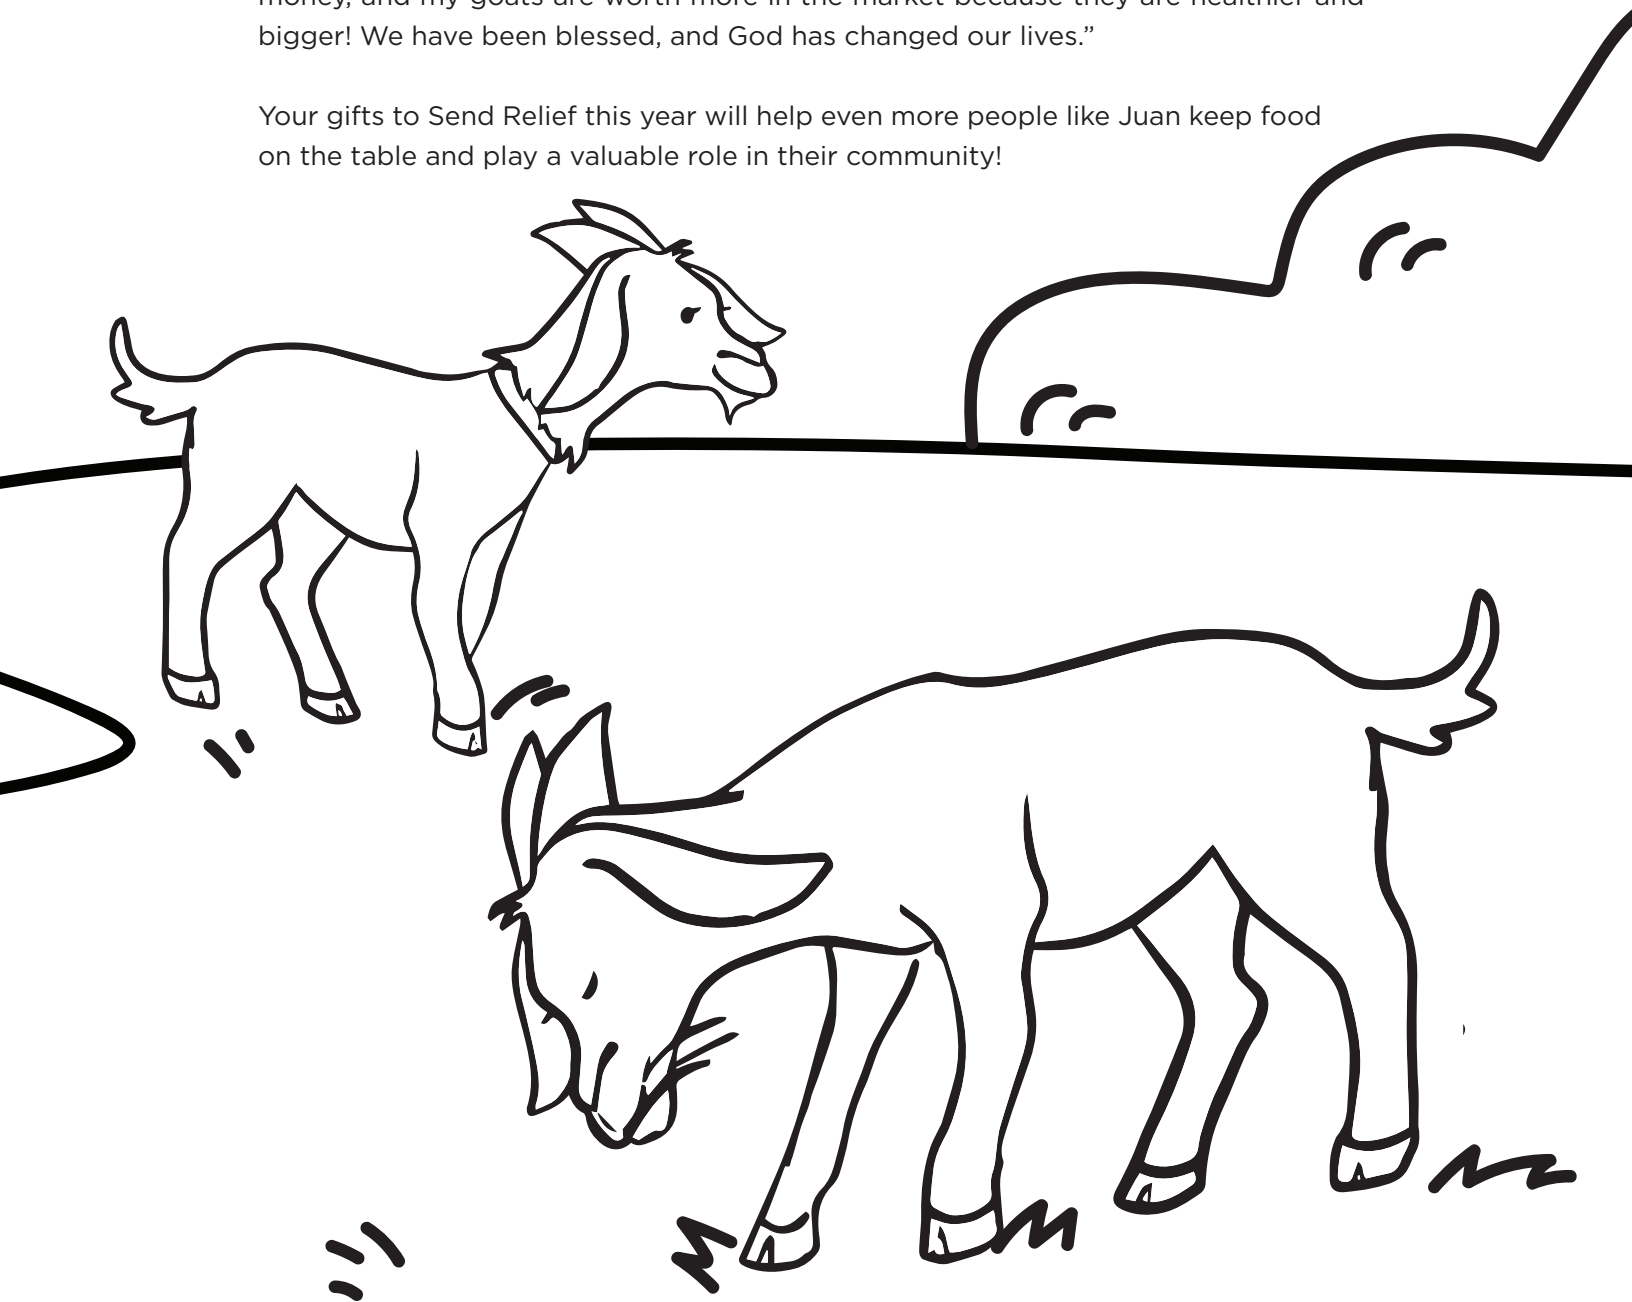

Many children were from poor families who could only afford corn or bananas to eat.

Send Relief hosted a training to teach the farmers how to grow vegetable gardens. They gave them more than 25 goats to raise. The goats provided milk and ways to make money for their families.

Juan received one of the goats. He started growing his own produce and finally had enough food to feed himself and his animals!

“I have benefitted a lot from this Send Relief project,” Juan said. “Now, I am earning money, and my goats are worth more in the market because they are healthier and bigger! We have been blessed, and God has changed our lives.”

Your gifts to Send Relief this year will help even more people like Juan keep food on the table and play a valuable role in their community!

# **SEND Relief**

Send Relief is the Southern Baptist ministry collaboration between the International Mission Board and North American Mission Board that is meeting physical and spiritual needs at home and around the world.
